SUMMARY

Software Engineer with 3+ years of experience designing, developing, testing, deploying, and maintaining full-stack and backend software at production scale across web and mobile (Android, iOS, iPad, web) clients. Experienced in system design, system integrations, distributed systems and large-scale data migration with a strong record of code review, engineering best practices, technical documentation, CI/CD, automated testing and production debugging. Includes hands on experience building accessible user-facing features and a strong foundation in data structures and algorithms.

TECHNICAL SKILLS

Programming Languages: Python, C++

Mobile Development: Swift, React Native, Flutter

Frontend Development: ReactJS, AngularJS, HTML, CSS, JavaScript, TypeScript, Figma

Backend & Databases: Node.js, Django, ASP.NET Core, REST APIs, PostgreSQL, SQL, PHP

Cloud & Infrastructure: AWS, Docker, Firebase, Azure DevOps, CI/CD

Testing & Reliability: Python Robot Framework, Selenium, Postman

Data Structures & Algorithms: 1000+ problems solved across platforms | [Profile Link](#)

EDUCATION

RR Institute of Technology

B.E. in Computer Science & Engineering

Jun 2020 – Jun 2023

Bangalore, India

Rajendranath College of Polytechnic

Diploma in Computer Science & Technology

Sep 2017 – Nov 2020

Durgapur, India

EXPERIENCE

Tech Sprint

Apr 2024 – Present

Software Engineer | Swift, SwiftUI, React Native, Node.js, ReactJS

Remote, India

- Built and shipped **Insights by RestoGenius**, a **native iOS app** (Swift, SwiftUI, Combine) **published on the App Store** (also on [Google Play](#)), with real-time dashboards for orders, revenue, and staff management.
- Shipped **RestoGenius Go** and **RestoGenius** (also on [Google Play](#)), **native iOS apps published on the App Store**, owning UI architecture and REST API integration in SwiftUI for a **no-reload, responsive experience** across iPhone and iPad.
- Worked on **RestoGenius**, a hospitality POS live across **10+ Australian venues**, spanning **kiosk, online ordering, and loyalty** across iOS, iPad, Android, and web; built the end-to-end ordering flow (menu, cart, combos, payments) into a **single unified system**. Also participated in technical design discussions with engineers to evaluate implementation approaches, system architecture and feature trade offs.
- Built the **Uber Eats integration**, replacing manual two-place menu syncing and implemented role-based access and multi-restaurant switching so managers securely manage data across venues from one app.

Computer Solutions East Inc.

Mar 2024 – May 2024

Software Developer | C#, ASP.NET Core, ReactJS, TypeScript, SQL, Azure DevOps

Remote, India

- Developed full-stack (backend and frontend) features for a B2B sales intelligence platform, surfacing buyer journey stages and prioritization signals to help sales teams act on high-intent leads.
- Wrote and executed SQL migration scripts moving **60,000+ production records** into a redesigned PostgreSQL schema via Azure DevOps with **zero data loss** and no downtime, unblocking a dependent feature release.

Adevu

Jun 2023 – Mar 2024

Software Engineer | Python, Django, ReactJS, Docker, AWS, Robot Framework

Remote, India

- Built and deployed frontend and backend modules for a Hotel Management System on AWS using Docker, covering reservations, room inventory, and role-based access.
- Developed an **accessible admin module** with in-platform guidance to improve usability for hotel staff.
- Reviewed code and maintained feature/testing documentation to improve correctness, testability and release quality.
- Built Robot Framework test plans covering **70% of the codebase** and integrated CI/CD failure alerts with Slack for faster regression triage.

Adevu

Dec 2021 – May 2023

Frontend Engineer Intern | ReactJS, Python, Django, AWS, Figma

Remote, India

- Contributed **1000+ lines of production code** across core Hotel Management System modules including dashboard, room bookings, rates, and reporting screens used daily by hotel staff.

Techbiz Innovators

Oct 2021 – Apr 2022

Software Engineer Intern | HTML, CSS, JavaScript, PHP, Figma

Remote, India

- Built a responsive 10+ page e-commerce site with product browsing, category filters and an admin panel for managing products and inventory.
